The luminous, reflective quality of natural mica allows light to dance off this high-performance interior finish.

Now you can bring the rich, traditional look of granite to create spectacular, sturdy-looking interior designs.

Use Triarch's Granyte to create the substantial appearance of quarried granite, with only the expense of a drywall partition and the Granyte. Consider the use of various drywall reveals and moldings to add design impact.

Combine the 10 standard colors or any of the nearly limitless custom color options together, or use them with other Triarch finishes to achieve tailored sophisticated interiors. Granyte is both strong and durable – just like the natural granite it visually creates.
