Sedona DS II

Splatter DS II

The workhorse – a durable, highly-desirable interior finish to meet the demands of today's busy interior spaces.

Plexture is the interior design workhorse; a moderately priced interior finish with durability few other interior finish solutions can match. This seamless, interior acrylic textured finish is aggressively priced for a typical installation price for a standard Plexture finish below \$0.75/square foot for medium scale commercial installations with national average labor costs. The appearance is similar to many knock down finishes, but the durability, washability, abuse resistance and mold & mildew resistance have allowed Plexture to capture a large percentage of the hospitality marketplace.

Premium Plexture finishes such as Symphony and Sedona DS II will typically install for \$0.95-1.05 per square foot under the same project conditions. Regardless of the finish selected, Plexture is warranted against mold and mildew growth (ASTM D 3273) and coating integrity for five (5) years. Eighty-six standard colors plus custom color and texture options provide a very wide range of design options.

Grand Casino, Biloxi, MS
